Hand-built Barn Door

LIMITED WARRANTY

Barn Pros Door Warranty

Thank you for your purchase of a new Barn Pros hand-built door. Barn Pros offers hand-built doors made from appearance grade, kiln-dried Pacific Northwest Douglas fir. They are as durable as they are beautiful and come with the unique character of wood. It is our intent to provide this warranty in clear, easy to understand language, to communicate to you what is covered by our warranty, what limitations and restrictions apply.

Barn Pros warranties its hand- built doors against manufacturing defects in materials or workmanship for a period of **one year** from date of shipment from Barn Pros Inc. Barn Pros has a diligent quality assurance standard and warrants that delivered doors will be free of shipping damage, warping and will meet advertised size specifications. Once the door arrives, it is the client's responsibility to inspect each door for any visible defects (including warping) before installation. If you have concerns, please call or email your product specialist and have photos available to provide if needed.

Finishing the door with stain, paint or other material is optional and not required. If you choose to add a finish we recommend consulting a local professional for best results. It is also strongly recommended to wait **four weeks** for the material to acclimate before staining or painting. Wood is a natural product and will expand and contract over time and with changes in environment.

Excluded from Warranty:

The following are not considered defects and therefore are not covered by warranty.

- Cosmetic defects not reported upon receipt of product.
- Altering, damage, misuse or abuse caused by others beyond control of Barn Pros.
- Natural variations in color, finish or texture of door.
- Failures or defects due to improper installation, lack of maintenance or normal aging.
- Any complications due to application of paint or stain and/or failure to follow the manufacturer's application instructions for the chosen product . Please consult your local stain or paint specialist before use.

If you are concerned about slight & rare imperfections that may appear after installation, please ask a product specialist about our steel framed doors and wood fill options.
